that won't work, as with mix files the lsd and ldd files contained in the mix must be the same as the .mix file name... C&C_Under.mix contains c&c_under.ddd and c&c_under.lsd

if you don't do that, you will be walking on blue hell....

if you want to do it, you will have to create a new mix file for it to do that...

hell, i will do it, and post it up for you guys to play.....

should be up in a few...
