Well before I joined WN all my nicknames just had 'Andy' in them, but when I joined the name WNxAndy was already taken, so I picked the nickname CABAL, as it is my favourite character throughout the CnC Series.

What is CABAL? CABAL is the artificial intelligence entity that played a critical role in Kane's plans during the second Tiberium War. CABAL is pure evil: terrifying, ruthless, and sadistic with a menacing voice to match.
