Apparently we can thank cyberpunk once again for yet another cheat for renegade. :stern: this time he has a hack version of renegade that will bypass reneguard so you can play in reneguard servers ...so this means its open season once again for cheaters .. this is what i found

"Renguard Bypass Crack #1

Description:

This is a crack and bypass mixed togheter which allows you to cheat on RenGuard protected servers. It contains a modified version of C&C Renegade 1.037 that reads Game Data from another folder."
