Jeep Rubitrunkskgb Which is why I think any server running CP, anyone who joins w/o it should have version mismatch and not be able to play.

what about the n00bs that havent downloaded anything for renegade. they would not be able to join very many servers.

There just n00bs, would you miss them? lol

Quote:you cant really use the "it'll be unfair for CP2 users and nonCP2 users" since they added the stealth crate to CP1 thats just retarded because non CP1 users can see the stealthed person, but CP1 users cant...

That is a huge disadvantage if people don't know have the CP. You or your tank is Stealthed, but they can see you because they dont have the CP. Thus giving you away and contradicting the whole idea.
