Subject: why does my computer crash ?
Posted by Walrus on Sun, 20 Apr 2003 19:53:00 GMT

there is a thread with the exact same problem as you posted by NeoSaber, have a look at that one and try some of the stuff sugested there.

ok, try restoring your GF2 card back to its defaults on all its tabs (direct3d and open gl), if that works/does not work post back. good luck.
