Stop pleading! You're giving him power. You're asking him to make a decision in favor of what you want. He shouldn't have a fucking choice. Honestly, I don't give a fuck if he takes down all the servers. If he does, he's going to suffer consequences he will never have thought would happen to him. Go ahead and let him attack the servers. He'll be in a world of hurt if he does. It may or may not be caused by me, but who knows. If someone else doesn't do it, I sure as Hell will. "One way or another, I'm gonna find ya, I'm gonna getcha getcha getcha getcha!"
