I have already asked several times.. I don't know what in the world is going on between them on why it is not locked, and trashed.

C&C
Ken

Why are you defending him? you hate cheaters worse than I do. Hell, you have a list of them with literally hundreds of cheaters usernames on it. Not to mention, what if he does this to the UN servers Noddy? You thrive in that place, don't defend him in wanting to dismantle it.
