If Cyberpunk really wanted to help anything at all, he'd go 'discover' things the way Jonwil and SilentKane do; not go around the internet saying "omg renguard annoys me hlp plz hak around it."

Oh yeah, you want my IP too while we're at it? I'm thinking about putting up a server myself. I'll give you an IP as soon as you respond to the fact that two people (maybe five, tops, out of thousands) annoy you yet you persist in attacking everybody. You're like those teachers at school you hate, who punish the class when one dumbfuck talks out of turn.
