While you clearly have difficulty stringing a coherent sentence together, I know what you're talking about.

You personally know Lurker? Really? What's his real name? Where does he live? What's his job? I actually can answer those questions, because I do know him personally... Oh dear, 2-0 to me...

Oh dear, someone called you a nasty name. Go down to the cellar and cry for a few more hours. Maybe get a hug from your parents, assuming you know who your parents are, which I think unlikely.

Just because you constantly act like a bitch and people flame you for it, doesn't mean they are to blame for the retarded stuff you do. This entire situation is YOUR fault, no one else's, even if you're too stupid to realise it. I know it makes you feel better to say it's everyone's fault but yours, but you're still full of shit...
