Just to add on to what U927 has stated, the insurgents who are attacking the Americans were the ones who WANT Saddam to be in power. I highly doubt Saddam would be killing those who would support him.

Saddam, to restate, killed everyone who opposed him, and those whom he simply wanted to see dead. When he was removed from power, certain people did not like that and proceeded to attack the military forces who removed him from power, including remnants of the Iraqi military who are still loyal to Saddam. Ie, people who Saddam was not killing.

Edit: Now that I think about it, why is it not surprising that someone who thinks Saddam is a good guy, also likes to look at someone's rear end?
