ok heres what to do:

note: first backup server.dat

- 1) W32Dasm (deassemble server.dat), find the locations of the decisions ("Gameplay Pending")
- 2) HIEW it (hex editor + debugger), use the debugger view and change the location to the ones found from above
- 3) Change the 'je' or 'jl' to 'jne' or 'jae' for each desition

EDIT: pr download and read this..
