Oh c'mon, a liberal with a superior intellect to that of all conservatives like yourself should be able to figure it out, or are you really not as smart as you'd like us to believe?

You believe the war in Iraq was wrong simply because the world says it was wrong, yet you turn right around and say it doesn't matter what the world says if it doesn't line up with the facts. Your contradictions are as clear as your bullshit arguments are see-through.
