"A pernicious, spreading evil" is a definition of "cancer" along with the well known "any of various malignant neoplasms characterized by the proliferation of anaplastic cells that tend to invade surrounding tissue and metastasize to new body sites" definition.

Personally, I see the MP clan as a cancer.

First off all, i lost 3 family members to that "pernicious, spreading evil" AKA wild growth of mutated cells. And so have several other members of MP, so we know WTF we are talking about when it comes to ppl wishing/saying cancer. it hurts us straight in the hart (Call it sentimental, call it weak whatever, fuck you on that subject)

So my reasons are grounded.

By calling someone "cancer n00b" your actually wishing they would get it and die, now thats flaming someone in the highest degree possible degree.

And think whatever you want about MP, the truth is its a close community. and if you dont like the the way we "protect" OUR servers then piss off..

We dont need anyone telling us how we run our servers, we are the ones coughing up the money. And the people who actively support us by donating money so we can continue to run our servers
