Subject: A misunderstanding of Level Edit

Hi Dante,

C:\westwood\data\directory, once I learned that, that is what it was doing, I pulled the version that

realize it was doing that, I thought it was something that WW put there. For me to continue to release the map, would be wrong, but to make a mistake is human.

Lol, he was told over the span of like 3 threads, one which ran like 4 pages, that what he got out of level edit is ACK's map and wasn't what Westwood did. He refused to listen and refused to drop the map. He had his chances, many of them.
