Whistles innocently...

Yas, it's loud. Unfortunately that's the only way I could get it to sound any decent while in-game. With the Sound recorder the only volume options were to increase or decrease the volume by 25%. One down was too soft for in-game playing. At least for my liking. If you need it softer, feel free to reduce the volume via the Sound Recorder. Give the volume a chance, it does wonders for the ego.
