As always -- we have lives outside of RenGuard (blasphemy, I know)... we have things going on, but we're not at a point where we can definitely tell you when or what is happening. You have to also understand that keeping the RenGuard network up 24/7 requires a lot of time and money each day, monitoring the alerts we receive for abuse, making sure all the servers are accepting connections and aren't lagging... when RenGuard is working properly, that usually means we're doing our jobs, too.
