TheMostHated wrote on Thu, 30 June 2005 17:37 That server is a spot for noobs, meet me on jelly server, then you can brag. I'm not saying I'm an Expert, dude. I get my ass handed to me regularly. I wasn't bragging, either. I just posted this for the Hell of it. Heh.

deadfive wrote on Thu, 30 June 2005 19:09 I can't see why you were laughing so hard you had to quit. Loss of focus and concentration. If I continued playing, I wouldn't've been doing so as seriously as before this happened. . . .then again, I was mostly just jumping into APCs at the command of some dude that kept opening fire on me and saying "Get in the vehicle!" a lot. *shrugs* Ah well.

In addition, in the match before this one, I was doing a pretty damned good job (at least I think so) of mining our base as a Nod Technician. We were losing, though. Badly. Not enough defense. Anyway! Some yahoo came in to the server and started mining our base rather poorly. IE, he'd slap Proximity C4s on top of one-another, next to one-another, etc. etc. instead of spacing it out so the C4 didn't all go off at once. I told him to knock it off. He didn't. I found him, then personally told him to knock it off. Again, he didn't. But in addition to just blankly "staring" at me, he Private Messaged me, requesting I "just leave him the fuck alone". I told him no, explained why, then he answered with something similar to "NO I KNOW WHAT IM DOING BUT YOU DONT SO JUST SHUT THE FUCK UP". I responded with a simple message of "Riiiiight. . .," and he again spewed all-capped vulgarities at me, sounding stressed as ever. It was at that point I immaturely queried that, at that point, "Are you gonna go cry to your mommy?". He claimed that he was 21 years of age (Big deal. . . So am I. Woo.) and ended with a "SO THERE," then followed up by turning my own question at me! Gasp and hor-ror! The conversation ended with me smugly replying with "I'm a little too busy defending our base to do that right now. ;)" and him ending with "So am I Im sniping and wasting our teams credits," which sort of confused me, but I didn't press on. He left after we got our asses handed to us. (As I knew we would with the way he decimated my strategic mining. . .uh. . .strategy. Admittedly, he may have been in the right by mining the access tunnels, but that did leave us entirely vulnerable to stealthy little Hotwires and Engineers, so I dunno.) What was his name. . . "nodnay" or something, I think. I can't remember. But whatever.
