I am somewhat skilled at making bot mods.

1. U cant make them come off of the rope, they just have to be dropped from a trans heli.

2. Vehicle bot are possible, but u cant make any bot attack buildings.

3.U cant get the bots to go to a specific place, but they do go to were the enemy is.

4. All the names for the characters is in commando under presets> soldier just try the diffeerent one untill u get it correct.

The script u need for the vehicle bots is

-510   Attach_Script,   5, "M05_Nod_Gun_Emplacement", ""
