I don't get why it was cancelled, or why it was being made primarily as a recon/scout to supplement the AH-64D Apache Longbows instead of replacing them. It's stealth, and can carry many more weapons (double sets of wings if needed) than the Apaches could.

<http://www.globalsecurity.org/military/systems/aircraft/rah-66-capabilities.htm>

Yeah, A shitload of people In my state lost jobs because the cancelled it. An now the Great Minds of the US Governemnt are trying to close down the only US Sub Base in the Northeast. Virtual Cookie to whomever can answer what base/state Im talkin about!

Connecticut
