The Terrorists have won this battle. They've diverted news coverage away when the Worlds Eyes are on Great Britain with the opening of the the G8 meeting and winning the Olympic bid. There is no doubt in my mind that disrupting the G8 was their intention and they have succeeded, Tony Blair is leaving to go back to London. Apparently some Italian group have claimed credit for the attack but nobody believes them as attacking London would have no effect on Italian politics.

It could have been the French, they've always been sore losers.
