Cyber030 wrote on Sun, 10 July 2005 17:49Ooooooo..... the rest of you got burnt there. These guys know what they are doing. They are here for your help, not for your criticism. They can't improve if they don't listen to constructive criticism. Just because he uses the same hex color doesn't stop it from looking like wood. It's not the color that makes it look like wood, it's how he made the texture.
