ok i found out that my e-mail adress is wrong, and my birthday is wrong for renegade. is it possible to change this info? also i can't creat another nickname because my e-mail is in use by another? also it says that i have a totaly of 4, meaning iam maxed out.....i never created one before. also when i try to retrive a lost password it says that the e-mail does not exist? so if you could help me find whats wrong it would be nice, thank you.
