nopic, on IRC you you said you were running a file called "ip stealer" and were going to hack us all. But we laughed you down.

Also you said you had all our IRC passwords. And said "this is <someones> password sf98080809sflijk encrypted in oijsd0f982"

You try to act like a fucking hacker, you're a stupid fucking kiddie.

<back to the main issue>

It's as if your talking to a clone of your self.

And it looks like you doctored it to make your self appear less stupid.

nopic you are total and utter faggot. Just die.
