I was playing on Jelly-Games AOW in Siege once, as Nod. I had bought a SBH+Nuke and was trying to Harvy-walk into GDI's base, when, lo and behold, a pack of rushing teammates took out the AGT! Peeling off from behind GDI's Harvester, I noticed a seemingly abandoned GDI Medium Tank just sitting in GDI's base. I grabbed it and managed to get credit for killing 2 buildings with the thing.

Raveshaws/Sydney 2s generally don't fire off fast enough to get the job done if they're smart enough to fall back.
