The icons are Humvees because in Renegade there is no icon with a Sedan or a Pickup. What I am suggesting is they make them then change it so that it uses those icons instead of the Humvee one. There are extra unused models in Renegade (Dino man, Chicken, Dude with a hat, A clown(not sure about this one but I think I saw it ones))So it should enable those for users of CP2 to purchase in extras. Even if you didn't have CP2 you couldn't buy them but you could see someone if they had bought it.
