Neat site.

I would have done the exact same thing in his position. And i agree, if she had to take a leak that bad, she would have wet herself when he put the cuffs on her. The only words of wisdom that i can give, are; if he does go to jail(and i hope he doesnt,) then never follow someone planning to break out, and try to be friendly to your cell mates if you have any. The last thing you need, is for one of your cell mates to try and kill you in your sleep.
