Dudley wrote on Sun, 07 August 2005 11:52 just follow these steps and it should work...

install game
install patch 1.037
Install no-CD patch if need be
install rg
(disable core update)
login on wol
(enable core update)
install core patch
play it

it might happen that u get problems installing cp without logging in on wol coz rg doesnt detect a nickname, not always but it happens sumtimes... thats the secure way to get over this
