"gbull" I thought you meant Source as in the Source engine, I misread, my bad.
I already said I misread dumbass. I didn't start insulting you until you started after me. I keep hoping a Mod will impress me enough to play it longer than 5 minutes, so I come to see the Models in this part of the forums because there is often impressive work here. Just because your Renegade mod sucks doesnt mean others may not. So get off my case.
