Hi, some of you may know me, others may not.....

basically i have a complaint about one of the admin on the Renegade Community Server- Maniacmanson[Germanclaner], he is an immature horrible little man, he uses any excuse to kick or !n00b me, earlier today he n00bed me twice for base sniping, when i wasnt even basesniping..... then he kicked me twice for using bad language- which consisted off a me calling him a prick for n00bing me for no reason, i didnt do this is public, only private to prevent people who are kids seeing this -even tho it aint bad language!

Can we clarify- is basesniping a n00bable offence? because if it isnt against the rules, then why should it be?

one thing admin are on servers not only to protect against cheats, but to help, and he wouldnt even give me this forum for a long time- can i ask is he like this to anyone else?
