Chronojam wrote on Wed, 17 August 2005 22:39By my count, the clip they show can hold 34 bullets in some kind of staggered alignment. Nowhere near 99... Plus, the clip is much shorter than the one shown in the Westwood shots. Reborn will be happy if all their fans are blind, I'm sure, or simply bad at making any kind of spacial relation between two objects.

(ps you're about five minutes late with that post)

part of the clip could be hidden in the body of the gun itself...and who really looks for that sort of thing in a GAME
