After a long and hard process, we finished all of the weapons. Nightcrawler worked very hard in getting all of them ingame and working properly. He was helped by laeubi and thekgbspy for the technical aspect. Nightcrawler made new custom animations and created projectile and all sort of nice effects for most of the weapons. There are many new sounds and also some from renegade. Thanks to Fobby, Jokah and Pendullum for the new sounds. Some sounds, weapon positions and animations may be changed.

Let's not wait anymore, get the trailer that Sloth made today and enjoy it!:
