There is Said .. If u r sure of this why dont u go in the RG Forums for result the Probleme ...

he said: Yes I already post the problem in the Forum ...

WTf ??? I think is just a noob right

After TranslationSo. . .I was playing a game with a n00b named "SoQion". This n00b claimed that I was using a modified Stealth Black Hand skin; a skin that allowed me to see all units on the field which were invisible at the given time. Even though I was running RenGuard -- which does not allow modified skins on Pure servers -- he still accused me of this due to the fact that I was scanning the area with my Orca and wound up killing him around four times. . .

He continued to accuse me of cheating via use of modified Stealth skins which, as I had said, is not even possible to do while you're running RenGuard.

It was at this point that I then suggested to him, "If you are positive that I was cheating, you should visit the Official Renegade Forums and inquire about the problem." He simply replied that he had already done so, even though he apparently has not. What in the world?

Well, in my opinion, this gentleman is indeed the n00b. Do you not agree with this?

You're welcome.
