dead6re wrote on Tue, 23 August 2005 05:05Its a random bug somewhere along the RenGuard Network or SSC. It should go away after you restart RenGuard. I was having a lot of trouble with it a day or so ago.

Actually yes, i as having the same problem as the first guy, i have RG and i was gettin !forcerg all the time, im pretty sure it was just a bug for that particular day because now there are no prblems, my question is, is there ne way to fix this problem/bug so you cant get forcerged?
