There was on RG-bypass, made by p*nkb**ter, but 10 minutes after its release it was patched . IMO the worst days spent by p*nk on that lol...

There's not such a list avallable. If it got names on it, it would proolly just draw people towards it, trying to get on it.

yes there was i got banned 4 it so theres ur proof
but it still works if mac aint online witch he is all the time
