aha! i know what u mean on the xphaze server!

let me explain. i was running RG, i was a engineer on gdi. it was field i think, and i was disarming mines in tunnel. at the same time i was disarming, someone on nod was overmining,so a lot of mines disappeared and thats why it seemed i had some repaircheat. i was kicked then before i could tell the man they were overmining. i tried to join again to explain, but couldn't get in, nor could i on other xphaze servers.

at the time, i laughed cause they were overmining and the mines disappeared but next i got kicked and then banned from RG.

i hope u can remove the ban after reading this.

greetings, GSX.
