Yes, and it's because of you. Hmm, why did you get flamed to hell and back? Because you stole other's property, added a few of your crap models to it, and tried to release it as an act of revenge. Was the flaming necessary? Yes. Did you deserve it? Completely and utterly.

Captkurt01WestWood. would be proud...

It's Westwood, the second W isn't capitalized.

If you didn't make a complete and utter idiot out of yourself, and knew how to create maps without stealing from others, this wouldn't have happened.
