my name is trooprm02 and for the longest time I have been looking for a FDS Serial!
I have arranged to create a 75(maybe even 127!!) player aow server. And my friend down in
miami is also hosting,
and he says its virtually lag free! The server will run 24/7 and will be moderated by clan members,
and a bot at irc(language filter, kick ilders etc...)
In return for the serial I can make you a full-moderator, or you have full access to my services(Im
a professional webpage designer/programmer)
Anyway, If you would like to see this server up, please pm me a woking serial.

Thanks, and wish me luck

Why did you do a double topic?
Wth is the point of that...
