I garuntee you he used MS Paint. No doubt about that. And my god nopic, it is only obvious you posted this to get attention. There is no way in hell you can even like that. If you do happen to like your own work somehow, you sir, are an idiot. And nopic, we can't change the clan pages. We do not have access to them. Unless BHS does...Do they? Anyway, nopic, go away.
