Hmm... No cheats, eh? Unless the Clear Scope is a cheat, then i believe him. Y'know, aside from the fact that he shot about, as Chrono put it, a meter from someones ear, and killed them. A few of them looked like lag kills, and fewer were actual SKILL kills. Other than that, no, that was definate either cheating, or somethin. And what kind of Engineer gets out of his Mammoth, and doesnt repair while moving, or atleast BEHIND the damn thing?
