Holy crap, he came back. Glad I didn't place money on that bet.

Edit: I did the math. \$45,750 total. Frankly, five buck per serial isn't that bad if you think about it. It also ensures that someone doesn't do like those botters did and get an assload of serial numbers for the Hell of it.

. . .of course. . .

Considering you have 9,150, I figure you're one of those particular "botters" I speak of. What you do with your ill-gotten gains is none of my business, but if it were me, I'd give them to Blackhand Studios.
