Sniper servers are great, and I don't like sniping.

The only thing I don't like about it is when snipers think they're the elite of renegade even though sniping is the only thing they know how to do... they just don't realise sniping is 5% of renegade and you aren't a renegade god if you suck at the other 95%.

Now, me. I suck at 65%, so I'm a little higher on the ladder.
