But I expect more of perfectly capable English-writing people.

To all the 1337 sp33k3rs: Like God Of Death stated, how you type reflects your intelligence. I hope you realise why many people on here don't take you seriously.

No i disagree, people can be very intellengent and just not give a rats ass on how they type. However, typing like a TOTAL retard is alittle questionsable but when a person has 5-10 errors in a paragraph i consider that acceptable.
