Crimson wrote on Sat, 17 September 2005 21:09 For what it's worth, intergalacticpriest's IP is substantially different from CPUkiller's.

There is one set of IPs for people on DSL in this county, and another set for those on Dial Up is why they are so different.

I did find out intergalacticpriest is who I thought it was, just one of my brother's friends (and an immature one @ that. Hangs out @ totse, etc.)
