CloudyOneStudios = CloudyServ? Look at the pic, I was on the "Adadserv" which is hosted on WOL US last night. Small server running exactly the same modifications as the MP-Coop serer.

CloudyOneStudios made CloudyServ(cs.cloudyonestudios.com). I believe the first version(s) were made by CloudyOne but the recent work was done by Adad. AdadServ is a co-op server, I am assuming that is the mod you are talking about?
