Yes, get your router between and it'll act like a switch.

30 $ for a LAn cable? That wouled mean you would have like 50 meters or so?

A switch costs around 50 € for one with 5 ports, I think...

Yes, you will need a 2nd serial but use a keygen for it (it's illegal, yes, but if EA doesn't care, then why should we care?).
