Yes, that's right. Our humble little project, Renegade: A New Hope, got mentioned in the most recent article of PC Gamer, the best-selling gamers' magazine in the world! This is by far the biggest publicity that our mod has ever recieved, and perhaps the biggest splash that Renegade has made outside of the CnC Community since it's release. With any luck, we'll get more coverage when we release. If that happens, we may be able to accomplish our goal of bringing in new players and renewed hope to this great game.

If you happen to get PC Gamer, our mini-article is on Page 118, in the Extended Play section of the magazine.
