Sir Phoenixx wrote on Wed, 19 October 2005 11:26I don't smoke or drink alcohol, never did, nor do I ever want to.

(Why do people say they drink alcohol (and/or get drunk) to have "fun", when alcohol is a depressant?)

Interesting because a few weeks ago when I drank, I was actually quite happy and having a good time. Not once did I feel depressed or filled with any sorrow, etc... that would be characteristic of a depressant.
