Class has started? I left school to get out of that shit, I don't need it here. If you want to teach someone, teach yourself. If what you say is true, than everything you've ever done twice you are addicted to. This includes playing a game, breathing, blinking, taking a shit, taking a leak, burping, farting, sitting down, standing up, moving your fingers, moving your toes, having your heart beat, moving your legs, arms, eyes, head, feet, hands, etc etc. You can't be addicted to that, because if you don't do it you'll die. I'm not addicted to food, but I like it. If I was addicted to food, I would always crave at all ages. I'm a teenager right now, so I'm always hungry, but I know when I need to stop eating. You need to think of what you say before you say it.
