Would someone help me with this problem. I don't want to fuck anything up. Can someone walk me through step by step and don't leave any important details out. I've tried what Kanezor "said" on page 2 at the end of the page. I went to delete the last

HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Enum\Root\LEGACY _SVKP. and it gave me an error saying that I couldn't delete it. It gave me this error message
