rc22fires wrote on Wed, 26 October 2005 13:49I know how to use RenIP just fine, Im no noob. The problem is every time I try to use it my RG gets messed up. Now I can't start RG at any time at all not from RenIP not from Gamespy not from the icon on my desktop.

I tried reinstalling everything and it did not work. I will try again.

Strange...I have NEVER had that problem
